

Joseph Newman

I'm a full-stack web developer with a background in UI/UX and graphic design, passionate about building dynamic and engaging web experiences. I specialize in crafting clean, responsive front-end interfaces using HTML, CSS, and JavaScript, while also handling back-end development with Node.js and Express.js. I'm dedicated to creating scalable and efficient applications from concept to deployment.

PROJECTS

Techsavvy Business Website custom wordpress theme • PHP
View live website at joseph-newman.com

I developed a custom WordPress theme for Techsavvy using HTML, CSS, Bootstrap, and PHP. I also created the company's branding and logo design. The theme was built from scratch to match the brand identity and included responsive layouts, editable content areas, and optimized performance across devices.

Pokemon-TCG javascript • node.js • express.js • ejs
View live website at joseph-newman.com

Created a dynamic website using Node.js, Express.js, and EJS templating, integrated with the Pokémon TCG API. Features include card search functionality, real-time pricing, detailed stats, and pagination. Designed to offer users an interactive experience for exploring Pokémon cards.

Techsavvy Hub App react native • node.js • express.js
View live app at joseph-newman.com

Designed and developed the Techsavvy Hub mobile app using React Native, Node.js, and Express.js, enabling clients to submit IT support tickets directly from iOS devices. Built a custom REST API to connect the app with our internal ticketing system, improving support efficiency.

EXPERIENCE

Techsavvy • IT Technician
October 2023 – Present

Diagnosed and resolved technical issues for schools and businesses at Techsavvy, gaining hands-on experience with backend systems, security software, and client-facing tools.
